

Falcon Endpoint Protection Enterprise

Stop breaches with full endpoint protection

Built to stop breaches

CrowdStrike Falcon® Endpoint Protection Enterprise sets the new standard in endpoint security with the first and only cloud-native security platform proven to stop breaches by unifying next-gen antivirus (NGAV), endpoint detection and response (EDR), managed threat hunting and integrated threat intelligence in a single cloud-delivered agent.

Key product capabilities

AI-powered NGAV

- Protects against the entire spectrum without requiring daily and cumbersome updates
- Combines the best prevention technologies — machine learning, AI-powered indicators of attack (IOAs), exploit blocking, high-performance memory scanning and more — to stop ransomware and fileless attacks
- Covers the gaps left by legacy AV and fully protects endpoints online and offline

Intelligent EDR

- Prevents silent failure by capturing raw events for automatic detection of malicious activity, providing unparalleled visibility, proactive threat hunting and forensic investigation
- Unravels an entire attack in the easy-to-use CrowdScore™ Incident Workbench enriched with context and threat intelligence data
- Provides powerful response action to contain, investigate and remediate compromised systems

24/7 managed threat hunting

- An elite team of security experts proactively hunts, investigates and advises on activity in your environment to ensure threats and high-priority alerts don't get missed
- Alert prioritization uniquely pinpoints the most urgent threats in your environment and resolves false positives
- Guided response provides clarity on an attack and guidance on what to do next

Key benefits

- Stops breaches by providing unified endpoint and identity protection
- Provides unparalleled real-time visibility of events and activities across endpoints and identities
- Accelerates investigation and remediation and ensures stealthy attacks don't go undetected 24/7
- Orchestrates and automates complex workflows with Falcon Fusion to simplify security operations and accelerate response
- Shows you the big picture with CrowdScore, your enterprise threat score
- Reveals areas of exposure and elevates your security expertise and capabilities

CrowdStrike Products

Falcon Endpoint Protection Pro

Device control

- Provides detailed visibility on USB device usage
- Enables granular policy enforcement to ensure control over USB devices used in the environment

Firewall management

- Makes it easy to create, manage and enforce policies
- Defends against network threats and provides instant visibility to enhance protection and inform action

Integrated threat intelligence

- Enables you to fully understand the threats in your environment and easily prioritize responses with threat severity assessment
- Eliminates guesswork so you can respond to threats decisively
- Automatically determines the scope and impact of threats found in your environment
- Provides a broader set of indicators of compromise (IOCs) for faster, better protection

Cloud-native platform

Reduces cost and complexity by eliminating the need for constant signature updates, on-premises management infrastructure and complex integrations

Enables the industry's fastest deployment and rapid operationalization — without requiring a reboot after installation

Only CrowdStrike provides full, automated protection across endpoints without impacting endpoint performance and end-user productivity

About CrowdStrike

[CrowdStrike](#) (Nasdaq: CRWD), a global cybersecurity leader, has redefined modern security with the world's most advanced cloud-native platform for protecting critical areas of enterprise risk — endpoints and cloud workloads, identity and data.

Powered by the CrowdStrike Security Cloud and world-class AI, the CrowdStrike Falcon® platform leverages real-time indicators of attack, threat intelligence, evolving adversary tradecraft and enriched telemetry from across the enterprise to deliver hyper-accurate detections, automated protection and remediation, elite threat hunting and prioritized observability of vulnerabilities.

Purpose-built in the cloud with a single lightweight-agent architecture, the Falcon platform delivers rapid and scalable deployment, superior protection and performance, reduced complexity and immediate time-to-value.

CrowdStrike: We stop breaches.
